Umbrella message

Telefónica delivered group revenue of €8,127M in Q1 2026, with growth led by convergent bundles in core markets and double-digit growth at Telefónica Tech [S6].

Executive summary

This document sets out the approved internal messaging for Telefónica's Q1 2026 revenue performance. It is intended for internal audiences and consolidates the governing figures and strategic narrative for the period.

The defensible group revenue figure for Q1 2026 is €8,127M, representing an increase of 1.8% year on year [S6]. This figure is reconciled with the audited management accounts and is the reference Telefónica defends with analysts [S4]. All internal communications and spokesperson briefings for Q1 2026 must use this figure.

Note on superseded figures: An earlier messaging pack referenced a group top-line of around €7,982M for Q1 2026 [S1]. That figure corresponds to Q4 2025 group revenue [S5] and does not match the published Q1 2026 results. The earlier pack has been superseded and must not be used [S1]. Similarly, any draft Q2 2026 lines referencing cost discipline or full-year guidance upgrades have been superseded by the approved Q2 talking points and must not be used [S3].

The sections below address the most relevant strategic axes that can be supported by available approved sources.

Q1 2026 revenue performance

Group revenue for the first quarter of 2026 reached €8,127M, an increase of 1.8% year on year [S6]. This is the figure Telefónica reports and defends externally, and it is reconciled with the audited management accounts [S4].

Growth in the period was led by convergent bundles in the core markets and by double-digit growth at Telefónica Tech [S6]. The adjusted EBITDA margin for Q1 2026 stood at 32.1% [S6].

Net financial debt at the end of Q1 2026 was €26,140M [S6].

Spokespeople should refer only to these governed figures and must not reference the superseded €7,982M figure, which relates to Q4 2025 [S5] and was incorrectly carried into an earlier messaging pack [S1].

Convergence and B2B as growth drivers

The approved external line for the current period affirms that the group delivered growth led by convergence and B2B, with continued network investment [S2]. This framing is consistent with the Q1 2026 results, which attribute revenue growth to convergent bundles in the core markets and to double-digit growth at Telefónica Tech [S6].

Spokespeople should anchor commentary on these two drivers when discussing the performance trajectory. References to convergence and B2B are approved for external use; references to full-year guidance upgrades or cost-discipline narratives drawn from superseded drafts are not approved and must be avoided [S3].

Messaging governance and version control

Several versions of Q1 and Q2 talking points are in circulation. The table below summarises their status.

— Q1 2026 IR Factsheet [S4]: Current and defensible. Group revenue €8,127M. Use for all Q1 2026 references.

— Q1 2026 Results Financial Highlights [S6]: Current and defensible. Group revenue €8,127M; adjusted EBITDA margin 32.1%; net financial debt €26,140M. Use for all Q1 2026 references.

— Approved Q1 Messaging spokesperson pack [S1]: Superseded. The top-line figure of approximately €7,982M no longer matches published results. Do not use.

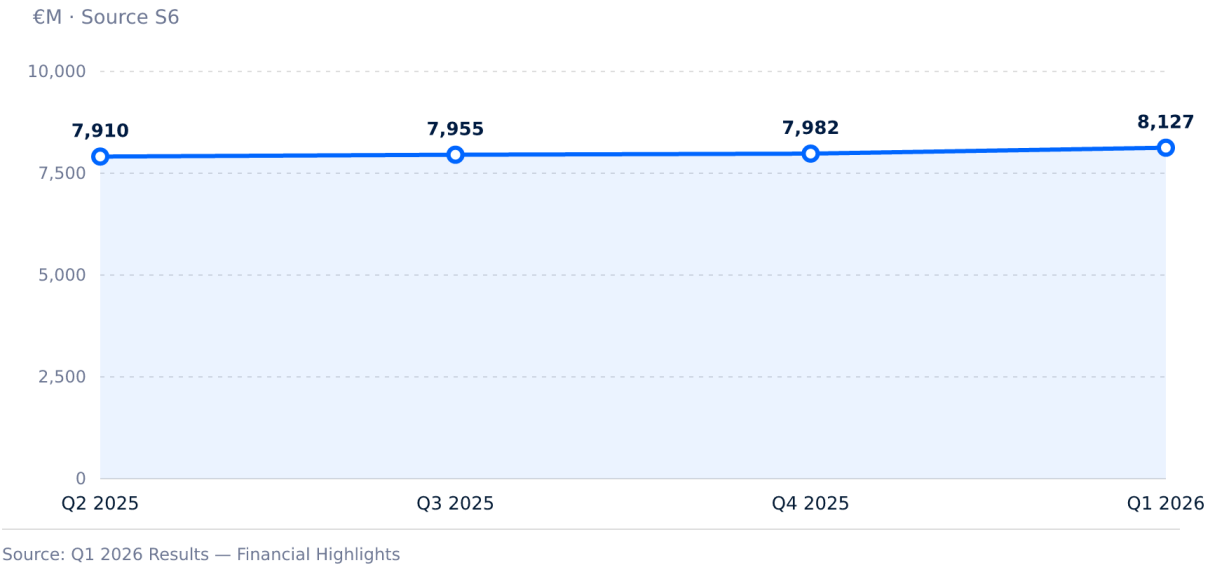

— Q4 2025 Results Financial Highlights [S5]: Historical reference only. The €7,982M figure relates to Q4 2025, not Q1 2026. Do not use as a current revenue reference.

— Q2 2026 Approved Talking Points [S2]: Current and approved for Q2 2026 use. Do not pre-empt full-year guidance.

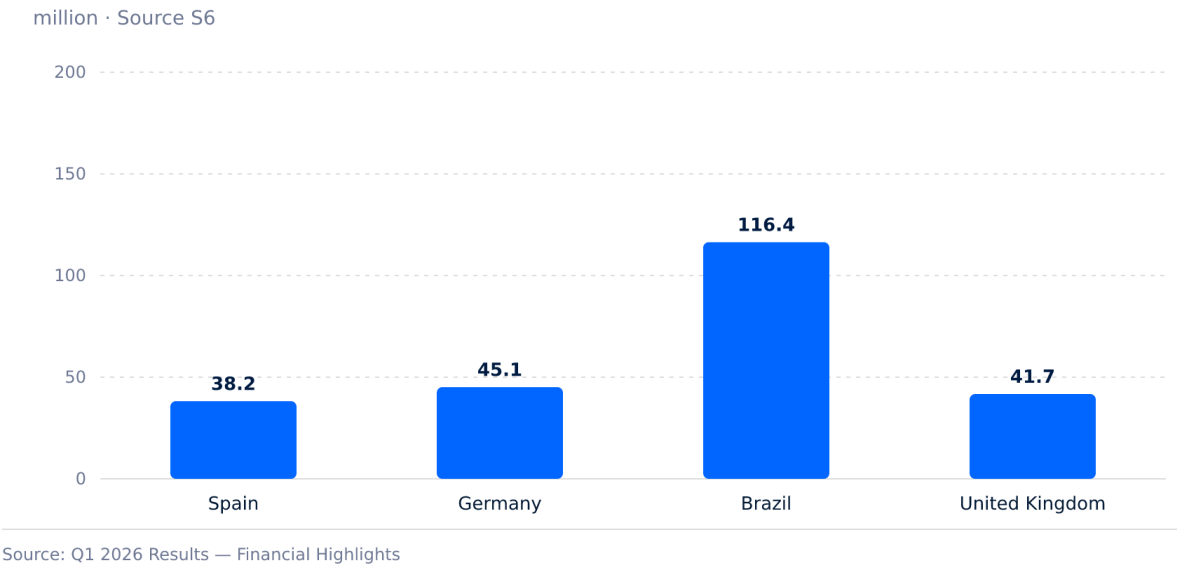

— Q2 2026 Draft Talking Points [S3]: Superseded. Retained for audit history only. Do not use.

Any communication using the €7,982M figure for Q1 2026 must be corrected before publication or distribution. Teams should contact the Communications Hub SSoT owner to obtain the current approved pack.
